Blade Bases

For any belt width, belt speed or bulk material:

We always have the right solution for you!

Quick, easy and individual Belt Cleaner Configuration

Common problems of a plant operator without functioning conveyor belt cleaners:
Massive material loss, high cleaning costs, premature belt wear

With **STARCLEAN® Conveyor Belt Cleaners**, such problems are a thing of the past. With our modular system, we put together the perfect scraper tailored to your individual requirements.

From now on you can do the same: With the new, unique **STARCLEAN® Web Configurator**, you can now easily compile your own individual scraper - without any prior knowledge. All you have to do is enter a few parameters, such as your belt speed or belt width, and within a few minutes you will receive your customized STARCLEAN® Conveyor Belt Cleaner.

Start now with the configuration of your individual
